

SPARTA-CHIP

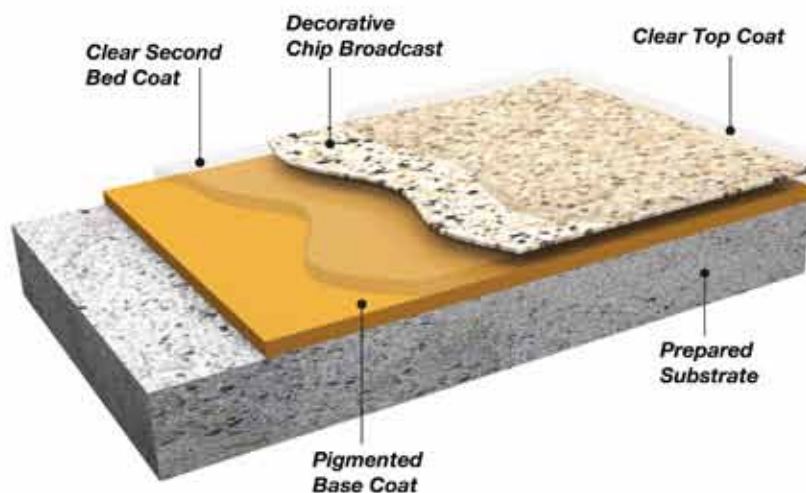

Heavy-Duty Chip Flooring Systems
by HP Spartacote®

HP Spartacote's® Sparta-Chip™ system is designed to provide a capable yet decorative simulated granite / terrazzo seamless flooring finish. The system requires minimal maintenance while offering tremendous durability. Incorporated into commercial, retail and residential settings, Sparta-Chip™ combines high-quality vinyl paint chip media with HP Spartacote's® patented DCC® polyaspartic coatings. The result is a highly durable yet aesthetically appealing concrete floor finish. Sparta-Chip™ is an effective solution for projects requiring a quick return to service as the entire system can be installed in just one-day, allowing for heavy traffic within a matter of hours.

Sparta-Chip™ Common Uses:

- Commercial / Retail
- Patios
- Garages
- Showrooms
- Restaurants
- Hospitals
- Locker Rooms
- Restrooms
- Walkways
- Food Preparation

Features and Benefits:

Durable: Outstanding concrete adhesion, triple the abrasion resistance of standard epoxies.

Chemical Resistance: Anti-microbial surface, USDA & FDA approved.

All Climate Application: Apply down to -30° F.

Green Friendly: Ultra-Lo VOC and zero Voc emitting coatings available to help generate LEED credits.

Rapid Return to Service: System application in a matter of hours with next-day full return to service.

Versatile: Available in numerous HP Spartacote's® standard blends with both high-gloss and lo-gloss finishes.
